

Adriana MANESH is an administration and business systems professional with 18 years' industry experience (as of 2026) supporting human resources, staff administration, business systems and operational functions within the construction industry. She holds a Bachelor of Psychology from the University of Canberra.

As HR and Systems Coordinator at Sydney Contracting Engineers Pty Ltd (SCE Corp), Adriana supports the coordination of people, processes and information across the organisation. Her responsibilities span staff coordination, onboarding and induction administration, employee and training documentation, business-system registers, controlled records and administrative coordination, supporting both office operations and project delivery.

Adriana combines strong organisational skills with attention to detail and a structured approach to managing multiple priorities. She supports SCE operations with a focus on accurate records, confidentiality, compliance, clear communication and efficient business processes, contributing to the effective coordination of the company's people, systems and day-to-day operations.
